

Fluid Technology is our Passion

The **sera** Group

Since the company founding in 1945, **sera** has been synonymous with quality, expertise, speed, reliability and flexibility.

Whether for waste water, drinking water treatment, the food and beverage industry, the paper and textile industry or energy and environmental technology - **sera** provides efficient and optimal customised solutions for all cases of application involving the accurately measured dosing, feeding and compressing of fluids and gases.

sera's core competences, dosing and compressor technology, are represented by the subsidiaries **sera ProDos** and **sera ComPress**.

- **sera ProDos** is system provider for high quality products and services for the dosing and feeding of chemicals and fluids.
- **sera ComPress** provides a variety of application-specific solutions applying single-stage and multi-stage metal diaphragm compressors for the compression of high-purity gases free of oil, impurity and leakage.

sera is locally present for our global customers

The **sera** Group is an independent family business group with the headquarters in Immenhausen, located in the centre of Germany.

As a global company group, **sera** is one of the leading manufacturers in its industrial sectors and business areas and is characterised by expertise, quality, speed and reliability.

Together with the **sera** companies in Germany, subsidiaries in Great Britain and South Africa and a worldwide sales and service network with more than 30 foreign representatives in over 80 countries across all continents, **sera** guarantees optimum support, advice and service for customers locally.

Excellence in Fluid Technology

sera is a worldwide leading system provider for dosing and compressor technology, having decades of experience in solving customer-specific dosing and feeding tasks for both flowing media as well as for the compression of high-purity gases free of oil, impurity and leakage.

Excellence in Fluid Technology!

sera customers and partners benefit from the performance, reliability and high quality standards of a major enterprise combined with the speed and flexibility of a small and medium-sized enterprise.

What does characterize **sera**:

- Experience and Know-how for decades
- Extensive Know-how in industrial sectors and applications
- High flexibility of customized solutions with our own engineering
- Speed, reliability and adherence to delivery dates
- 24-hour delivery service
- Services: advice, engineering, commissioning, assembly, maintenance and repair
- Trainings and qualifications for customers
- Innovative, rugged and long-lasting products with high quality
- Intelligent, controllable single components
- Automated system solutions
- High operational safety and economic efficiency

Why our customers trust and appreciate **sera** ?

We prove every day that the customer is at the centre of our interest at any time.

Regular and competent contact persons throughout the entire tendering, order and project realization processing ensure optimum customer support and advice.

Our customers confirm that we react flexibly to each particular customer demand, that we are quick in processing, that we are reliable when it comes to stick to agreements and that we perform in due time.

From the engineering and production to the after-sales-service, we provide you with high quality products and services

everything from a single source – perfectly matched to one another!

Memberships

Fluid Technology is our Passion

sera - your high-performance partner in many industrial sectors

- Food and Beverage industry
- Dairies
- Brewing industry
- Agricultural industry
- Drinking-water treatment
- Wastewater treatment
- Chemical/Petrochemical
- Gas industry
- Laboratory technology
- Pharmacy
- Power plant technology
- Renewable energy
- Conventional energy
- Metal processing
- Pulp and paper
- Textile industry
- Color & printing industry
- Ship building
- Building services engineering
- Mining

sera ProDos provides high-quality products, services and system solutions for the dosing and feeding of chemicals and fluids.

In our different industrial sectors, **sera ProDos** develops solutions which are economically, technologically and ecologically trendsetting.

The extensive product portfolio includes:

- Complex system solutions
- Pumps and fittings
- Measuring and control technology and analysis
- Assembly and commissioning
- Extensive service before, during and after the sale
- Extensive technical support
- Spare parts and repair service
- Individual customer trainings

Sera Quality Products

made in
Germany

sera ComPress offers a multiplicity of custom-designed solutions on the basis of one and multi-stage metal diaphragm compressors for the oil- and contamination free compression of high-purity gases, with flammable, aggressive, inert, toxic and radioactive characteristics.

Thereby **sera ComPress** is able to realize customized applications, which are optimally constructed for the respective operation purpose.

In addition, **sera ComPress** supports you before, during and after the sale with extensive services like technical support, commissioning and installation, spare parts service, maintenance as well as repair-service. Individual customer trainings are also available.

Sera Quality Products
made in Germany

We are proud of having many satisfied customers worldwide

One central element of our mission statement...

Our customers and partners with their individual needs are always at the centre of our interest.

"Since all inquiries, uncertainties and problems were eliminated directly, friendly and to our complete satisfaction, we suggest how to improve this state."

Sebastian Wetter, Caloric Anlagenbau GmbH

"innovative unique products"

Axel Kremer, CTS-Chemie Technik Service GmbH

"everything fine - keep it up!"

Ulrike Köhl, HOCHTIEF Energy Management

...e implemented, solved and
...isfaction, I don't have any

"the project managed by me was
handled to my complete satisfaction."
Christian Tuchel, Linde Gas AG

"Everything that I think is important in the pump business,
sera have it."
Mehdi Najem, Apumas Belgique

"We wish that **sera** keeps on produ-
cing products and solutions with a
high quality "made in Germany". "
Ralf Urbaneitz, Gemeinschaftskernkraftwerk

"**sera** should strive to keep
up the current state"
Gernot Psik, Albert Handtmann

Solid Foundation - Constant Growth

- 1945** Founding of the company Seybert & Rahier OHG by Reinhold Seybert and Hubert Rahier in Immenhausen
- 1950** Patent registration of the first double diaphragm dosing pump in Europe
- 1950s** First foreign distribution partners in NL, A, CH, N
- 1958** Development and building of the first single-stage metal diaphragm compressor for gases
- 1960s** More distribution partners in Europe
Mr. Helmut Rahier joins the Management of the company Seybert Rahier
- 1970s** Expansion of the distribution network in Europe
The first of the two founders, Hubert Rahier, resigns from the company and hands over the management to Helmut Rahier

Founding of the **sera** subsidiaries:
sera ProDos GmbH and **sera ComPress GmbH**
- 2012** Extensive modernization of the headquarter in Immenhausen
- 2013** **Seybert & Rahier GmbH + Co. Betriebs-KG** is legally transformed to the **sera GmbH**

We at sera are...

solid

We are reliable and deal with our business partners and colleagues on a fair and respectful basis. It is our intention to convince clients through quality, competence and efficiency.

effective

We put great emphasis on qualified and efficient employees who complete their tasks with courage, creativity and team spirit. We should consider the cost and value in everything we do.

responsible

We assume economic, social and ecological responsibility.

added value oriented

We create added values for our customers, the society and the environment by our work as well as our products and services.

...be **sera** - ...be healthy - ...be competent

Healthy Body

A healthy mind in a healthy body.

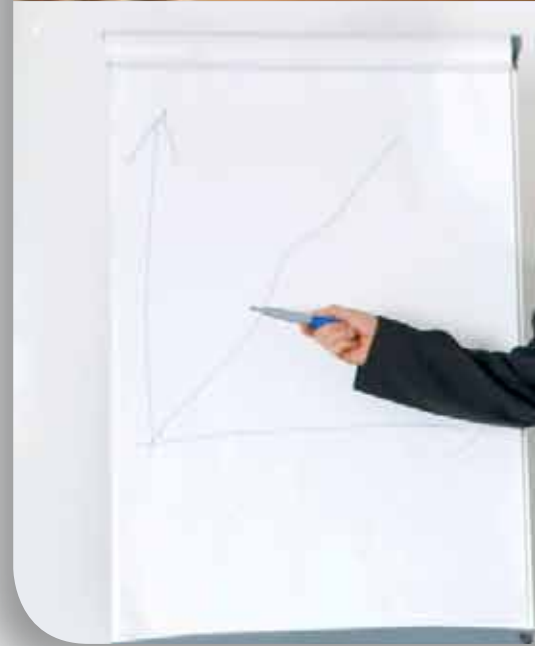

According to our saying „**...be sera ...be healthy**“ we at **sera** promote healthy life and work for all employees.

Whether daily fresh fruit, water dispensers, movement exercises for office and manufacturing workplaces, sports like back exercises and Yoga in the „Room of Body and Soul“ or individual opportunities to unwind and regain new strength in our „Room of Inspiration“ – this diverse offer is at the free disposal for all our employees.

Healthy Mind

The attractive continued education and advanced training offerings of the **sera Academy** gives our employees the opportunity to learn decades of technical Know-how from our specialized staff and to participate in external training offers like foreign language courses at **sera**.

A corporate library to expand one's professional knowledge is also available.

Social Commitment and Sponsoring

Sport Sponsoring

sera supports top-class sports and many regional sports clubs and events.

Social Sponsoring

sera fosters social facilities and organizations and schools, such as, e.g. Omaruru Children's Haven in Namibia, Hat-tiban, the SOS Children's Villages, Kinderzukunft e.V. and regional schools for disabled children.

Sponsoring of Culture and Science

sera promotes arts, culture and science in our region, such as e.g. the Documenta, Kassel's Cultural Summer (Kultursommer) and Kassel's Museum Night and promotion Nordhessen with our own **sera environmental prize**.

Locally present for our global customers

With a headquarter in Germany and local offices in England and South Africa and a worldwide sales and service network with more than 30 foreign representatives in more than 80 countries across all continents, **sera** guarantees optimum support for customers locally.
