

At sera, we move more – together. With more than 300 colleagues across seven companies, we are an international group of companies developing technical solutions for demanding applications. We combine the strengths of a well-established company with the dynamics of an international working environment. At sera, you can contribute your ideas, take responsibility and actively shape the way we work. A modern workplace, short decision-making processes and open, collaborative teamwork are part of our everyday working culture.

To strengthen our international organization, we are looking for a

ELECTRICAL AND INSTRUMENTATION ENGINEER (M/F/D)

Location: India

If you have experience in electrical and electronic systems, automation, and control engineering, you will have the opportunity to work in an industrial environment, contributing to the design, implementation, and optimization of advanced technical solutions.

YOUR TASKS

- Design and development of electrical and electronic projects, primarily using Eplan
- PLC programming, preferably with Siemens systems
- Design and management of industrial networks
- Technical support and troubleshooting in electrical and electronic installations
- Collaboration with cross-functional teams to ensure proper implementation of solutions
- Preparation of technical reports and project documentation

YOUR PROFILE

- Degree in Electrical or Electronic Engineering
- Strong knowledge of electrical design software (preferably Eplan)
- Experience in PLC programming, especially Siemens platforms
- Solid understanding of industrial networking systems
- Upper-intermediate to advanced level of English (essential for technical communication with international clients and teams)
- Knowledge of German will be considered an advantage
- International working experience

WHAT WE OFFER

- An opportunity to grow within a supportive and innovative team
- A competitive salary, aligned with industry standards
- Career progression opportunities for individuals with ambition and drive
- A challenging yet rewarding role in a globally recognized company

If you are enthusiastic, technically minded, and ready to bring your expertise to a leading dosing pump manufacturer, we would love to hear from you. Join sera and be part of a team that values precision, reliability, and exceptional customer service.
