

At sera, we move more – together. With more than 300 colleagues across seven companies, we are an international group of companies developing technical solutions for demanding applications. We combine the strengths of a well-established company with the dynamics of an international working environment. At sera, you can contribute your ideas, take responsibility and actively shape the way we work. A modern workplace, short decision-making processes and open, collaborative teamwork are part of our everyday working culture.

To strengthen our international organization, we are looking for a

MECHANICAL ENGINEER (M/F/D)

Location: India

If you have experience in technical design and engineering solutions, you will have the opportunity to work in an industrial environment, contributing to design, validation, and continuous improvement of production processes.

YOUR TASKS

- Design of individual parts, assemblies, and systems based on order specifications or predefined work packages
- Preparation of manufacturing drawings, including definition, specification, and creation of drawings for purchased components
- Preparation of project management documentation (e.g., instrument lists and spare parts lists)
- Conduct risk assessments and hazard analyses (HAZOP) in accordance with established guidelines
- Support in the preparation of operation manuals for customers
- Monitoring timelines and assigned tasks to ensure timely delivery
- Managing technical changes within project management and product lifecycle processes

YOUR PROFILE

- Degree in Mechanical Engineering, Mechatronics, or a related field
- Experience with CAD applications, preferably Solid Edge
- Familiarity with PLM and ERP systems is an advantage
- Willingness to travel occasionally to the headquarters in Immenhausen, Germany
- Ability to support knowledge transfer of processes, structures, and production standards in an international environment
- Strong command of English for professional communication
- Knowledge of German will be considered an advantage
- International working experience

WHAT WE OFFER

- An opportunity to grow within a supportive and innovative team
- A competitive salary, aligned with industry standards
- Career progression opportunities for individuals with ambition and drive
- A challenging yet rewarding role in a globally recognized company
